Measure catalogue

Every number in the review has one definition, agreed here. When a measure changes, this page changes first.

1. Measures of every review

Measure	Definition	Comes from
Sales	Amount of every completed line, after discounts; refunds count as negative sales.	`transactions.amount`
Cost of sales	The direct cost of what was sold; quantity times the unit cost of the item list when the line carries none.	`transactions.cost, items.unit_cost`
Gross profit and margin	Sales less cost of sales; the margin divides it by sales.	`transactions`
Operating profit	Gross profit less every expense booked to the site. Head-office costs are shown on their own.	`transactions, expenses`
Recent growth	Sales of the last three complete months against the same months a year earlier, or the three months before.	`transactions`
New, returning and lost	First purchase in the month; purchase after an earlier one; no purchase for the lost period.	`transactions.party_id`
Comeback within 90 days	Share of new customers with a second purchase within 90 days.	`transactions.party_id`
First-year value	Average sales of a customer in the twelve months after the first purchase.	`transactions.party_id`
Elasticity	Change in units per transaction for each 1% of price change.	`transactions, items.category`
Return on marketing	New customers of a channel times first-year gross profit, divided by its spend.	`marketing, parties.acquisition`
Sales per staff hour	Sales divided by payroll hours of the same site and months.	`transactions, staff.hours`
Forecast error	Mean absolute percentage error on months held back and forecast.	`transactions`

2. Measures of the restaurants and cafés pack

Measure	Formula of the standard totals	Direction
Average order value	`revenue / transactions`	higher is better
Food cost	`cost / revenue`	lower is better
Orders per seat a day	`transactions / capacity / days`	higher is better
Sales per labour hour	`revenue / staff_hours`	higher is better

Measure	Formula of the standard totals	Direction
Sales per square metre a month	`revenue / area / months`	higher is better

3. Words used for this business

Standard word	Here
transaction	order
customer	guest
item	dish
site	branch
capacity	seats
